

Techstreet Enterprise

Standards and guidelines for medical device manufacturing

Streamline your standards management with this expert collection of documents used by the world's leading medical device manufacturers for engineering and manufacturing compliance. Choose optional subject sets by publisher to complete your custom collection. Or choose *Techstreet* Building Blocks to easily add single documents to your subscription anytime you need them, without a service request.

Document list

AAMI

Human Factors Engineering
Liquid Barrier Performance of Protective Apparel and Drapes
Requirements for Products Labeled 'STERILE'
Bacterial Endotoxins
Steam Sterilization and Sterility Assurance
Comprehensive Guide to Steam Sterilization and Sterility Assurance
Medical Devices for Reprocessing in Health Care Facilities
Sterilization Using Ethylene Oxide
Microbiological Aspects of Ethylene Oxide Sterilization
Compatibility of Materials Subject to Sterilization
Guidance for ANSI/AAMI/ISO 11607 – Packaging for Sterilized Medical Devices
Product Process Equivalency for Ethylene Oxide Sterilization
Acceptance Criteria for Cleaning Reusable Medical Devices

Sterilization – Radiation – Method VDmax
Application of Usability Engineering to Medical Devices
Sterilization of Health Care Products – Radiation – Part 2
Symbols to be Used with Medical Device Labels
Guidance for ANSI/AAMI/ISO 10993-7 – Part 7: Ethylene Oxide Sterilization Residuals

ASME

Engineering Drawing Practices
Line Conventions and Lettering
Revision of Engineering Drawings & Associated Documents
Digital Product Definition Data Practices
Mathematical Definition of Dimensioning and Tolerancing
Dimensioning and Tolerancing

ASQ

An Attribute Skip-Lot Sampling Program
Sampling Procedures and Tables for Inspection by Attributes
Inspection by Variables for Percent Nonconforming

ASTM

Cleaning, Descaling, and Passivation of Stainless Steel Parts
 Chemical Passivation Treatments for Stainless Steel Parts
 Titanium and Titanium Alloy Bars and Billets
 Rubber Properties – Durometer Hardness
 Performance Testing of Shipping Containers
 Conditioning Containers, Packages, or Packaging Components for Testing
 Drop Test of Loaded Containers by Free Fall
 Peel or Stripping Strength of Adhesive Bonds
 Vibration Testing of Shipping Containers
 Specification of Pharmaceutical Manufacturing Systems and Equipment
 Intramedullary Fixation Devices
 Titanium Alloy for Surgical Implant Applications
 Microbial Ranking of Porous Packaging Materials
 Determining Integrity of Seals for Flexible Packaging
 Detecting Seal Leaks in Porous Medical Packaging by Dye Penetration
 Accelerated Aging of Sterile Barrier Systems
 Detecting Gross Leaks in Packaging by Internal Pressurization (Bubble Test)
 Design and Evaluation of Primary Flexible Packaging
 Seal Strength of Flexible Barrier Materials

BSI

Information Supplied by Manufacturers of Medical Devices
 Small Steam Sterilizers
 Ethylene Oxide Sterilizers
 Requirements for Labeling Medical Devices Containing Phthalates
 Large Steam Sterilizers
 Radio-Frequency Disturbance Characteristics
 Sterilization of Medical Devices

Requirements for Medical Devices to be Designated Sterile
 Application of Usability Engineering to Medical Devices
 Packaging for Terminally Sterilized Medical Devices
 Symbols for Labeling Medical Devices
 Biological Evaluation Within a Risk Management Process
 Biological Evaluation – Irritation and Skin Sensitization
 Biological Evaluation of Medical Devices
 Biological Evaluation – Degradation from Polymeric Medical Devices
 Biological Evaluation – Degradation and Leachables
 Biological Evaluation – Chemical Characterization of Materials
 Biological Evaluation – Interactions with Blood
 Biological Evaluation – In vitro Cytotoxicity
 Sterilization – Ethylene Oxide
 Sterilization of Radiation Products
 Sterilization – Biological Indicators for Ethylene Oxide Sterilization
 Packaging for Terminally Sterilized Medical Devices
 Packaging – Validation Requirements for Forming, Sealing and Assembly
 Sterilization – Microbiological Methods
 Quality Management Systems – Requirements for Regulatory Purposes
 Clinical Investigation of Medical Devices for Human Subjects
 Classification of Air Cleanliness
 Proving Compliance with ISO 14644-1
 Cleanrooms and Associated Controlled Environments
 Design and Construction of Cleanrooms
 Operation of Cleanrooms
 Cleanrooms – Vocabulary
 Cleanrooms – Airborne Molecular Contamination
 Cleanrooms – Biocontamination Control
 Sterilization – Characterization of a Sterilizing Agent
 Application of Risk Management to Medical Devices
 Symbols to be Used with Medical Device Labels
 Sterilization – Moist Heat
 Quality Management Systems – Requirements

IEC

Degrees of Protection Provided by Enclosures
 Medical Electrical Equipment – Part 1
 Medical Electrical Equipment – Part 1-1
 Medical Electrical Equipment – Part 1-11
 Medical Electrical Equipment – Part 1-2
 Medical Electrical Equipment – Part 1-4
 Medical Electrical Equipment – Part 1-6
 Medical Electrical Equipment – Part 1-8
 Medical Electrical Equipment – All Parts
 Medical Electrical Equipment – Part 2-22
 Electromagnetic Compatibility (EMC) – Part 4-2
 Electromagnetic Compatibility (EMC) – Part 4-3
 Electromagnetic Compatibility (EMC) – Part 4-5
 Medical Device Software Life Cycle Processes
 Application of Usability Engineering to Medical Devices
 Graphical Symbols for Electrical Equipment

ISO

Biological Evaluation – Part 12
 Good Clinical Practice
 Symbols to be Used with Medical Device Labels – Part 1
 Symbols to be Used with Medical Device Labels
 Cardiovascular Implants Part 2: Vascular Stents
 Conical Fittings for Syringes, Needles and Other Medical Equipment – Part 1
 Conical Fittings for Syringes, Needles and Other Medical Equipment – Part 2
 Competence of Testing and Calibration Laboratories
