- Key publishers being used: API, ASME, ASTM, AWS, BSI, DIN, IEC, ISO, SAE

Summary

What challenges did the customer face with standards?

Our contact at this company had used *Techstreet Enterprise* at a previous employer. He convinced his new employer to buy *Techstreet* when he switched companies. They needed an easier way to manage current standards documents and future updates, and deliver them to users.

Lessons learned

How did Techstreet Enterprise overcome these challenges?

The feature that this customer appreciates over all the others is *Techstreet's* partnership with them. We help them identify areas where they can save money with our usage reports. This has been key in securing their loyalty, especially given the current oil market.
