Glossary of equivalent standards .....	ix
Committee representation.....	xi
Acknowledgments .....	xiii
Foreword .....	xiv
Introduction: Need for the recommended practice .....	1
<b>1 Scope.....</b>	<b>2</b>
<b>1.1 General .....</b>	<b>2</b>
<b>1.2 Inclusions.....</b>	<b>2</b>
<b>1.3 Exclusions.....</b>	<b>2</b>
<b>2 Definitions, symbols, and abbreviations .....</b>	<b>3</b>
<b>3 Design considerations .....</b>	<b>11</b>
<b>3.1 General rationale .....</b>	<b>11</b>
<b>3.2 Centralization .....</b>	<b>11</b>
<b>3.3 Containment areas.....</b>	<b>11</b>
<b>3.4 Routing of traffic.....</b>	<b>12</b>
<b>3.5 Sterilizer access area.....</b>	<b>12</b>
<b>3.6 Storage of supplies .....</b>	<b>13</b>
<b>3.7 Temperature .....</b>	<b>13</b>
<b>3.8 Relative humidity.....</b>	<b>13</b>
<b>3.9 Ventilation recommendations for areas housing EO sterilization and aeration equipment.....</b>	<b>13</b>
<b>3.9.1 General considerations.....</b>	<b>13</b>
<b>3.9.2 Local exhaust ventilation .....</b>	<b>14</b>
<b>3.9.3 General room ventilation.....</b>	<b>15</b>
<b>3.10 Emergency eyewash and shower equipment.....</b>	<b>16</b>
<b>3.11 Environmental discharge controls .....</b>	<b>17</b>
<b>3.11.1 Ethylene oxide .....</b>	<b>17</b>
<b>3.11.2 Ethylene glycol.....</b>	<b>17</b>
<b>3.11.3 Hydrochlorofluorocarbons.....</b>	<b>17</b>
<b>4 Personnel considerations.....</b>	<b>19</b>
<b>4.1 General rationale .....</b>	<b>19</b>
<b>4.2 Qualifications .....</b>	<b>19</b>
<b>4.2.1 Supervisory personnel.....</b>	<b>19</b>
<b>4.2.2 Sterilizer and aerator operators .....</b>	<b>20</b>
<b>4.3 Training and continuing education .....</b>	<b>20</b>
<b>4.3.1 Sterile processing personnel .....</b>	<b>20</b>
<b>4.3.2 Other personnel.....</b>	<b>21</b>
<b>4.4 Personnel health.....</b>	<b>21</b>
<b>4.4.1 General considerations.....</b>	<b>21</b>
<b>4.4.2 Information concerning the potential hazards of exposure to EO .....</b>	<b>22</b>
<b>4.4.3 Medical surveillance and treatment .....</b>	<b>22</b>
<b>4.4.4 First aid.....</b>	<b>23</b>
<b>4.5 Attire .....</b>	<b>23</b>
<b>4.5.1 General considerations.....</b>	<b>23</b>
<b>4.5.2 Decontamination area.....</b>	<b>24</b>
<b>4.5.3 Service personnel.....</b>	<b>24</b>
<b>4.5.4 Prevention of occupational exposure to EO.....</b>	<b>25</b>
<b>5 Receiving .....</b>	<b>27</b>
<b>5.1 General rationale .....</b>	<b>27</b>
<b>5.2 Receiving of purchased or loaner items .....</b>	<b>27</b>
<b>5.2.1 General considerations.....</b>	<b>27</b>

<b>5.2.2</b>	Newly purchased reusable items and repaired reusable items .....	27
<b>5.2.3</b>	Rigid sterilization container systems.....	27
<b>5.2.4</b>	Disposable items .....	28
<b>5.3</b>	Disposition of sterile items (issued but not used) .....	28
<b>6</b>	Handling, collection, and transport of contaminated items .....	29
<b>6.1</b>	General rationale .....	29
<b>6.2</b>	Separation of waste and reusable items at point of use.....	29
<b>6.3</b>	Care and handling of contaminated reusable items at point of use.....	29
<b>6.4</b>	Containment .....	30
<b>6.5</b>	Transport .....	31
<b>6.5.1</b>	Transportation scheduling and routes.....	31
<b>6.5.2</b>	Transportation equipment.....	31
<b>6.5.3</b>	Hand transport.....	31
<b>6.5.4</b>	Dedicated lifts .....	31
<b>6.5.5</b>	Transport between buildings.....	31
<b>6.5.6</b>	Off-site transportation .....	32
<b>7</b>	Cleaning and other decontamination processes .....	33
<b>7.1</b>	General rationale .....	33
<b>7.2</b>	Policies, procedures, and manufacturers' instructions .....	33
<b>7.2.1</b>	Policies and procedures .....	33
<b>7.2.2</b>	Manufacturers' instructions.....	33
<b>7.3</b>	Presoaking.....	34
<b>7.4</b>	Disassembly.....	34
<b>7.4.1</b>	Sorting and disassembly of instrumentation .....	34
<b>7.4.2</b>	Disassembly of rigid sterilization container systems .....	34
<b>7.5</b>	Cleaning.....	35
<b>7.5.1</b>	General considerations.....	35
<b>7.5.2</b>	Cleaning agents.....	35
<b>7.5.3</b>	Methods of cleaning .....	36
<b>7.5.4</b>	Rinsing.....	37
<b>7.5.5</b>	Verification of the cleaning process .....	38
<b>7.5.6</b>	Cleaning of instruments.....	38
<b>7.5.7</b>	Utensils.....	39
<b>7.5.8</b>	Reusable textiles .....	39
<b>7.5.9</b>	Rigid sterilization container systems.....	39
<b>7.6</b>	Microbicidal processes.....	40
<b>7.6.1</b>	General considerations .....	40
<b>7.6.2</b>	Processes to decontaminate devices for safe handling .....	41
<b>7.6.3</b>	Terminal sterilization processes to prepare devices for the next patient use.....	43
<b>7.7</b>	Servicing and repair of devices in the health care facility.....	44
<b>7.7.1</b>	General considerations .....	44
<b>7.7.2</b>	Potential for exposure.....	44
<b>7.7.3</b>	Protective measures for service personnel.....	45
<b>7.7.4</b>	Postexposure program .....	45
<b>7.7.5</b>	Devices that cannot be repaired in-house .....	45
<b>8</b>	Packaging, preparation, and sterilization .....	47
<b>8.1</b>	General rationale .....	47
<b>8.2</b>	Items suitable for EO sterilization.....	47
<b>8.3</b>	Preconditioning (humidification) .....	47
<b>8.4</b>	Packaging .....	47
<b>8.4.1</b>	Selection of packaging materials .....	47
<b>8.4.2</b>	Packaging configurations and preparation.....	48
<b>8.5</b>	Loading the sterilizer .....	49
<b>8.5.1</b>	Load composition .....	49
<b>8.5.2</b>	Load configuration .....	49
<b>8.6</b>	Sterilization parameters .....	49
<b>8.6.1</b>	General considerations .....	49
<b>8.6.2</b>	Sterilizer manufacturer's instructions .....	49
<b>8.6.3</b>	Device and packaging manufacturers' instructions .....	50
<b>8.6.4</b>	Monitoring.....	50

<b>8.7</b>	Unloading the sterilizer .....	50
<b>8.7.1</b>	General considerations .....	50
<b>8.7.2</b>	Sterilizers without purge cycles .....	50
<b>8.7.3</b>	Sterilizers with purge cycles .....	50
<b>8.7.4</b>	Sterilizers with integral aeration .....	50
<b>8.7.5</b>	Sterilizers with "detoxification" .....	51
<b>8.7.6</b>	Handling of EO-sterilized items before aeration .....	51
<b>8.8</b>	Aeration recommendations .....	51
<b>8.8.1</b>	General considerations .....	51
<b>8.8.2</b>	Metal and glass items .....	51
<b>8.8.3</b>	Aeration capacity .....	52
<b>8.8.4</b>	Aeration times .....	52
<b>8.9</b>	Sterile storage .....	52
<b>8.9.1</b>	Handling and inspection .....	52
<b>8.9.2</b>	Sterility maintenance covers .....	52
<b>8.9.3</b>	Storage facilities .....	53
<b>8.9.4</b>	Shelf life .....	54
<b>8.10</b>	Distribution .....	54
<b>8.10.1</b>	Handling and inspection .....	54
<b>8.10.2</b>	Distribution containers .....	54
<b>9</b>	Installation, venting, routine care, and maintenance of EO sterilization and aeration equipment and EO gas sources .....	55
<b>9.1</b>	General rationale .....	55
<b>9.2</b>	Installation .....	55
<b>9.2.1</b>	Regulatory requirements .....	55
<b>9.2.2</b>	Manufacturer's instructions .....	55
<b>9.2.3</b>	Equipment location .....	55
<b>9.3</b>	Installation testing .....	55
<b>9.3.1</b>	Sterilizers .....	55
<b>9.3.2</b>	Emission control and ventilation systems .....	55
<b>9.4</b>	Venting of EO sterilizers .....	56
<b>9.4.1</b>	General considerations .....	56
<b>9.4.2</b>	Sterilizers venting to the outside atmosphere .....	56
<b>9.4.3</b>	Sterilizers venting to a sanitary floor drain .....	57
<b>9.4.4</b>	Sterilizers without exhaust to the outside atmosphere or a sanitary floor drain .....	57
<b>9.4.5</b>	Ventilation of EO gas cylinders .....	58
<b>9.5</b>	Venting of EO aeration cabinets .....	58
<b>9.5.1</b>	Vent lines .....	58
<b>9.5.2</b>	Equipment modifications .....	58
<b>9.6</b>	Ventilation system alarms .....	58
<b>9.7</b>	Maintenance of EO sterilizers, aerators, emission control systems, and ventilation systems .....	58
<b>9.7.1</b>	Manufacturer's instructions .....	58
<b>9.7.2</b>	Routine care of sterilizers and aerators .....	59
<b>9.7.3</b>	Preventive maintenance .....	59
<b>9.8</b>	Storage and handling of EO gas sources .....	60
<b>9.8.1</b>	Unit-dose containers of 100 % EO .....	60
<b>9.8.2</b>	Storage and handling of EO gas cylinders (tanks) and supply line filters .....	61
<b>9.9</b>	EO leaks and spills .....	62
<b>9.9.1</b>	General considerations .....	62
<b>9.9.2</b>	Emergency team .....	62
<b>9.9.3</b>	Emergency plan .....	62
<b>9.9.4</b>	First aid .....	63
<b>9.10</b>	Personal protective equipment .....	64
<b>9.11</b>	Equipment manuals .....	64
<b>10</b>	Quality control .....	65
<b>10.1</b>	General rationale .....	65
<b>10.2</b>	Monitoring of mechanical cleaning equipment .....	65
<b>10.3</b>	Product identification and traceability .....	65
<b>10.3.1</b>	Lot control numbers .....	65
<b>10.3.2</b>	Sterilizer records .....	65
<b>10.3.3</b>	Expiration dating .....	66

<b>10.4</b>	Overview of sterilization process monitoring .....	66
<b>10.5</b>	Sterilization process monitoring devices .....	68
<b>10.5.1</b>	Physical monitors .....	68
<b>10.5.2</b>	Chemical indicators .....	68
<b>10.5.3</b>	Biological indicators .....	70
<b>10.5.4</b>	Process challenge devices .....	71
<b>10.6</b>	Routine load release .....	71
<b>10.6.1</b>	Process monitoring devices.....	71
<b>10.6.2</b>	Release criteria for nonimplants .....	71
<b>10.6.3</b>	Release criteria for implants .....	72
<b>10.6.4</b>	Sterilization process failures .....	72
<b>10.7</b>	Routine sterilizer efficacy monitoring.....	73
<b>10.7.1</b>	General considerations.....	73
<b>10.7.2</b>	Composition of the PCD (routine BI test pack) .....	73
<b>10.7.3</b>	Placement of the PCD (routine BI test pack) .....	73
<b>10.7.4</b>	Test procedure .....	75
<b>10.7.5</b>	Acceptance criteria .....	75
<b>10.7.6</b>	Positive BI results .....	75
<b>10.8</b>	Qualification testing .....	76
<b>10.8.1</b>	General considerations.....	76
<b>10.8.2</b>	Composition of the PCD (challenge BI test pack) .....	77
<b>10.8.3</b>	Placement of the PCDs (challenge BI test packs) .....	79
<b>10.8.4</b>	Test procedure .....	80
<b>10.8.5</b>	Acceptance criteria .....	80
<b>10.8.6</b>	Positive BIs.....	80
<b>10.9</b>	Periodic product quality assurance testing of routinely processed items.....	82
<b>10.10</b>	Periodic product quality assurance testing of rigid sterilization container systems.....	82
<b>10.10.1</b>	General considerations.....	82
<b>10.10.2</b>	Responsibilities of the manufacturer.....	82
<b>10.10.3</b>	User responsibilities.....	84
<b>10.11</b>	Aeration of PCDs .....	86
<b>10.12</b>	Product recalls .....	86
<b>10.12.1</b>	General considerations.....	86
<b>10.12.2</b>	Recall procedure .....	86
<b>10.12.3</b>	Recall order .....	86
<b>10.12.4</b>	Recall report .....	87
<b>10.13</b>	Quality process improvement.....	87
<b>10.13.1</b>	General rationale .....	87
<b>10.13.2</b>	Quality process .....	87
<b>11</b>	Environmental and employee monitoring .....	89
<b>A</b>	General rationale .....	89
<b>B</b>	Instrumentation .....	89
<b>B.1</b>	Selection of monitoring methods .....	89
<b>B.2</b>	Reliability and use of instrumentation .....	89
<b>C</b>	Procedures.....	89
<b>C.1</b>	Monitoring sites .....	89
<b>C.2</b>	Frequency of monitoring .....	90
<b>C.3</b>	Sterilizer system leak checks.....	90
<b>C.4</b>	Ventilation system monitoring .....	90
<b>C.5</b>	Short-term exposures .....	91
<b>D</b>	Calculations and interpretation of data .....	91
<b>E</b>	Record keeping .....	92

## Annexes

<b>A</b>	Occupational exposure to ethylene oxide, final standard (29 CFR 1910.1047).....	95
<b>B</b>	Ethylene oxide and hydrochlorofluorocarbon emission control technologies .....	125
<b>C</b>	Processing CJD-contaminated patient care equipment and environmental surfaces.....	126
<b>D</b>	Selection and use of chemical disinfectants.....	127

<b>E</b>	User verification of cleaning processes.....	133
<b>F</b>	Thermal disinfection.....	138
<b>G</b>	Devices returned to the manufacturer.....	139
<b>H</b>	Round-robin study of the PCD (routine BI test pack) .....	145
<b>I</b>	Development of a prepurchase evaluation protocol for rigid sterilization container systems.....	147
<b>J</b>	Selecting equipment or services for monitoring airborne ethylene oxide at an EO sterilization facility.....	153
<b>K</b>	Bibliography and cited references .....	163

## Tables

<b>1</b>	Packaging for EO sterilization .....	48
<b>2</b>	Sterilization process monitoring recommendations .....	67
<b>3</b>	Simulated loads .....	79
<b>D.1</b>	Levels of disinfection according to type of microorganism.....	129
<b>D.2</b>	Occupational exposure limits for some chemical sterilants and disinfectants .....	132
<b>E.1</b>	In-use tests available to assess efficacy of cleaning of medical devices.....	136
<b>E.2</b>	In-use tests available to assess efficacy of washer-disinfectors used for medical device reprocessing .....	137
<b>H.1</b>	Mean kill times (minutes) and standard deviations for BIs inside the test pack vs. outside the test pack .....	146

## Figures

<b>1</b>	Example of an EO sterilization containment area .....	12
<b>2</b>	Microbicidal processes and use of PPE.....	41
<b>3</b>	Preparation of the PCD (routine BI test pack) (drawing not to scale).....	74
<b>4</b>	Placement of BI in syringe .....	78
<b>5</b>	Some components of the PCD (challenge BI test pack) .....	78
<b>6</b>	Placement of components in PCD (challenge BI test pack).....	79
<b>7</b>	Placement of PCDs (challenge BI test packs) .....	81
<b>8</b>	Example of placement of BIs and CIs in test rigid sterilization container system .....	85
